READY
TO USE

INTERIOR &
EXTERIOR

1 TW-601 TesonEasy 1K Mastic Waterproofing

- Ready-to-use one-component flexible waterproofing membrane.
- Provides waterproofing with crack resistance and UV/weather resistance.
- For roof deck, terrace, balcony, bathroom, toilet, wet area, RC gutter, planter box and under the tile area.

2 TE-TZ Teson Tile Zip

- Back-tile adhesive enhancer applied on the back of tiles to improve bonding strength and reduce tile detachment risk.
- Used together with cementitious tile adhesive.
- For ceramic, porcelain and mosaic tile installation on walls and floors.

3 TM-321 Teson Mastic Ready-to-Use Tile Adhesive

- Ready-mixed tile adhesive for fixing ceramic and porcelain tiles.
- No mixing required. Interior use only.
- For wall tiles, floor tiles, mosaics, kitchen backsplash, bathroom walls, countertops, gypsum boards, concrete substrates.

4A TM-401 Teson Ready-to-Use Tile Grout

- Pre-mixed coloured tile grout for filling tile joints.
- Good abrasion resistance and stain resistance.

4B TM-402 Teson White Creamy Tile Grout

- Ready-to-use acrylic-based white grout for tile joint filling with smooth finish and anti-sag properties.
- For ceramic, porcelain and mosaic tile joints.

THE TESON TILE INSTALLATION SYSTEM

Apply TE-TZ
on the back of tile

SUBSTRATE
Concrete / Cement Screed

APPLICATION AT WORK

1 WATERPROOFING TW-601

Roll or brush apply two coats on substrate.

2 TILE ZIP TE-TZ

Brush apply on the back of porcelain or large format tiles.

3 TILE ADHESIVE TM-321

Spread adhesive with notched trowel and install tiles.

4 GROUTING TM-401 / TM-402

Fill the joints and clean the excess for perfect finish.
